HOIST SAFETY PRECAUTIONS
USE AT YOUR OWN RISK
PORT IS NOT RESPONSIBLE FOR DAMAGE OR INJURY.

* Hull work or cleaning is not permitted.

* Keep area clear of debris and obstructions.

* Keep people away from lifting area, particularly from standing under the load or in the way of the swing.

* Inspect all running gear and lifting equipment and make sure everything is adequately
    and properly secured and is of proper size and strength for the load.

* Maintain proper balance and swing of boat while in hoist. Rig tending lines to control swing.

* Do not permit anyone that is not issued a key to use the hoist.

* When finished with hoist, put hook in the UP position with boom positioned over the railing,
    return control to the control hook and coil cord over hanger.

** REMEMBER - You are responsible for the safe operation of the hoist and any damage
    and liability resulting from its' operation.

* In case of accident, loss or damage, notify the marina office as soon as possible.

* In case of medical assistance or emergency call 911

Marina phone- daytime 360-293-0694,   after-hours 360-661-5000,   VHF Channel # 66a
