DIMENSIONAL CONSIDERATIONS

1. Berthage is assigned by Marina Management with regard to a vessel's overall length, beam, and operational characteristics. The overall length of a vessel shall be the measurement from the extreme point of the bow to the extreme point on the stern, including all gear and appurtenances. Management reserves the right to administer these policies on an individual basis to ensure fairness to all users.

a. Minimum Requirements

As established in the Marina Berthage Agreement, Marina Management must ensure that berths are utilized in a manner that will permit maximum efficient and safe public utilization of the Port's marina facilities.

b. Maximum Requirements

No vessel shall exceed the maximum length or allowable width of any assigned berth, except as may be permitted at the discretion of Marina Management, consistent with necessary vessel maneuvering and safety considerations.
