

PORT OF ANACORTES PRESS RELEASE

For Immediate Release

Cap Sante Boat Haven recognized as a regional leader in protecting the environment

The Clean Marina Washington Program recently recognized the Port of Anacortes' Cap Sante Boat Haven as a Certified Clean Marina for their excellence in pollution prevention to protect water quality and properly manage waste, and for promoting clean boating practices. In addition, Clean Marina Washington recognized the Port of Anacortes' commitment, innovation and regional leadership with the Clean Marina Leadership Award.

Clean Marina Washington is a partnership between marine businesses, government agencies and environmental advocates. Cap Sante Boat Haven joins a network of thirty-four marinas working to protect Washington waterways that are currently certified in Washington State. There are hundreds more marinas in similar programs around the country.

Cap Sante Boat Haven has earned the right to "fly the flag", so look for the new blue and white "Clean Marina" burgee flying proudly during your next visit.
