Thank you for the opportunity to work with you to promote accountability, integrity and openness in government. The State Auditor's Office takes seriously our role of providing state and local governments with assurance and accountability as the independent auditor of public accounts. In this way, we strive to help government work better, cost less, deliver higher value and earn greater public trust.

Independent audits provide essential accountability and transparency for Port operations. This information is valuable to management, the governing body and public stakeholders when assessing the government's stewardship of public resources.

The attached comprises our report on the Port's compliance and safeguarding of public resources. Our independent audit report describes the overall results and conclusions for areas we examined. We appreciate the opportunity to work with your staff and we value your cooperation during the audit.

Sincerely,

Pat McCarthy

AUDIT SUMMARY

Results in brief

In most areas we audited, Port operations complied with applicable requirements and provided adequate safeguarding of public resources. The Port also complied with state laws and regulations and its own policies and procedures in most areas we examined.

However, we noted certain matters that we communicated to Port management in a letter dated May 24, 2017, related to safeguarding of small and attractive assets. We appreciate the Port's commitment to resolving those matters.

About the audit

This report contains the results of our independent accountability audit of the Port of Anacortes from January 1, 2016 through December 31, 2016.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

Our audit involved performing procedures to obtain evidence about the Port's uses of public resources, compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, the areas examined were those representing the highest risk of fraud, loss, abuse, or noncompliance. The following areas were examined during this audit period:

- Self-insurance
- Safeguarding of assets
- Employee benefits follow-up
- Procurement
